

Enzoic Proposal for State Board of Administration Florida

Overview

Enzoic is a leading provider of various compromised credentials and breach detection services. We continually update our compromised passwords database from known breached passwords and cracking dictionaries containing billions of passwords used by hackers.

State Board of Administration Florida would like to protect their corporate network according to the NIST guidelines of SP 800-63B by preventing the use of these unsafe passwords.

To support this objective, Enzoic's Password API services are available integrated with Microsoft Active Directory Domain Services®. This service is installed as a password filter on the Domain Controller. This validates both new/reset passwords in Active Directory and continuously detects if they become subsequently exposed.

Licensing

State Board of Administration Florida is licensed for the *"Enzoic for Active Directory"* for up to 1,000 users at \$8,400 for a Term of one (1) year to commence upon acceptance of this Order according to Additional Terms below and as found at: <https://www.enzoic.com/subscription-agreement/> and which shall renew automatically unless cancelled with at least 30 day notice.

Additional Terms

Proposed order terms expire if not executed by April 26, 2021
